FCS PARTNER PROGRAM

With the FCS partner program, you extend your product portfolio to achieve cost-reducing and easily implementable software solutions for the operational IT management.

Your customers benefit from software that is always up to date and has always met the requirements of the market.

Favorable end customer prices and attractive dealer conditions are self-evident for us.

Become a partner, we are looking forward to you!

WHO CAN BECOME A PARTNER?

The software solutions of FCS are tailored to the needs of medium-sized companies, authorities, and administrations.

Here we need to find sales partners who can offer our solutions for hardware and software inventory, IT asset management, License management, IT lifecycle management, contract management, user helpdesk, software and operating system distribution, endpoint security or USB security.

Basically, every free software consultant, reseller and system house can become a partner.

ADMISSION CRITERIA OF THE FCS PARTNER PROGRAM:

Proof of extract from the commercial register/trade registration.

YOUR BENEFITS

With us, as your partner, you benefit from software competence and operational know-how combined with years of experience.

- Qualified team for you as contact person
- Fast response and short implementation times
- Optimal price-performance ratio
- Free updates within one version
- Easy and intuitive usability of the software
- Software "made in Germany"
- German and English language support
